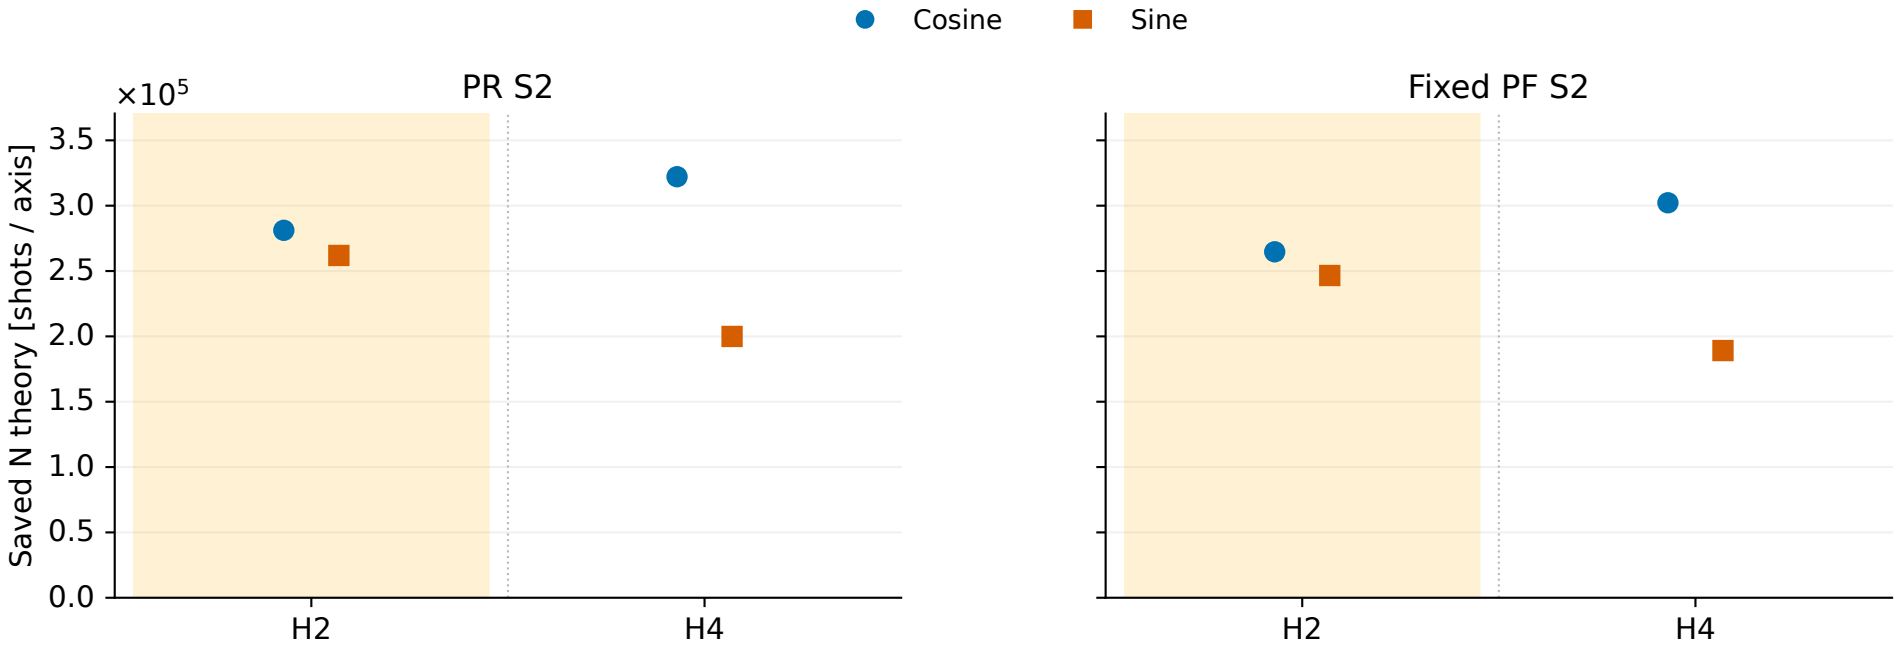
N | saved sufficient shots epsilon = 0.01

Independent circuit N is unavailable; no circuit/theory ratio is plotted

H2: recovered original n=8 | H4: new cohort



N is a sufficient-condition allocation with empirical numerical inputs; not measured shots

H2/H4: passed the executed technical checks; no independent scientific review

Fixed candidates | linear chains, 1 A, STO-3G | T=0.8 | native RZ, not paper Toffoli resources
