100 overlapping scopes / 40 endpoints: PF candidate changes 2
Selected PF total costs
Previous H6 signed (30)
Previous H8 both bias modes (40)
New H6 noncancellation (30)
Best PF total RZ: direct-price replacement
Best PF total RZ: mixed-price baseline
Direct-price effect on minimum cost
Change of selected minimum (%)
Conditional saved-cohort diagnostic: profile/runtime differences; S4 hypothesis; initial-run final gate missing.
70 prior rows copied; 30 H6 noncancellation rows use stage A shots and a newly completed baseline. Fixed PR n32; scopes overlap.
